

Description

When you're tired or stressed, the under eye skin can be swollen and dark as a symptom of your physical or mental fatigue. Looking tired can have a negative effect on your confidence and self-esteem. Remescar Eye Bags & Dark Circles is an instant and effective cream which helps to diminish eye bags and the appearance of dark circles with just one single application per day.

Its revolutionary technology EYESYL immediately targets eye bags & dark circles, by using a unique combination of clay minerals and a bi-peptide complex which will lead to strong skin tightening, a decrease of fluid accumulation under the eyes and a micromuscular pause. These actions will help to reduce the puffiness of the eyes and eliminate the appearance of dark circles.

Intended use

Remescar Eye Bags & Dark Circles is specially formulated to address eye bags and dark circles around the delicate eye area.

Instructions for use

Step 1: Wash your face gently and pat dry.

Step 2: Apply a moisturizer or eye cream (non-oil based) and wait for a minute or two so it can be completely absorbed into the skin.

Step 3: Squeeze out a small amount of product on your fingertip. You should aim for the size of a grain of rice; any less will not be enough, and any more is generally too much and won't fully absorb into the skin or could cause sensitivity.

Step 4: Rub the cream between your 2 index fingers until the cream becomes colorless (5 to 10 seconds). Make sure there is still enough cream between the fingers. In case it doesn't feel wet anymore, take a small amount on your fingertip again. This is one of the key factors to make Remescar Eye Bags & Dark Circles work correctly.

Step 5: Gently apply the cream on your entire under-eye area, and smooth it out from the inside to the outside with one finger. Blend in using a light gentle tapping motion until the cream completely absorbs into the skin.

Step 6: Remain expressionless for 2-3 minutes while the product dries to achieve dramatic results (fanning will accelerate the process). Simply tissue off the excess of cream with a bit of water if too much cream is applied. Wash hands and close the tube after use.

To Remove: Cleanse applied area with water and pat dry.

For under makeup: First, apply your usual products (eye serum, daily moisturizer, etc.) and allow time for these products to penetrate the layers of your skin (a minute or two). Then you can apply a very thin layer of Remescar Eye Bags & Dark Circles to the targeted area as instructed above. If you see a white residue you have either used too much product or did not use moisturizer. Simply tissue off the white residue with a bit of water. Once the product has dried, apply your makeup as usual.

Note: Oil-based makeup may reduce the effectiveness of Remescar Eye Bags & Dark Circles.

Precautions

- Keep out of reach of children.
- Must only be used as directed.
- For external use only.
- Avoid contact with mucous membranes or the eyes. Rinse thoroughly with water in the event of contact with the eyes.
- Avoid excessive sun exposure.
- Discontinue use if irritation or sensitization (redness, pain, etc.) occurs. If skin irritation or sensitization occurs, discontinue use and consult your physician if the symptoms persist for more than 48h.
- Use of the product is inadvisable if you have allergic reactions to one of the ingredients.
- Do not use on damaged skin (e.g. open or infected wounds, third degree burns, acne, eczema). Only use on normal healthy, non-infected skin.
- Only use once a day.
- Do not use the product continuously for more than 4 weeks.
- To ensure optimal performance and to avoid dependence on the product, it is advised to allow the under-eye skin to rest a few days (4-5) after using the product daily for 4 weeks. In case of occasional use of the product there is no need for a resting period.
- Do not use if the packaging has been damaged.
- Not recommended for pregnant or breastfeeding women.
- Not recommended for children under the age of 16.
- Once opened, it's advised to use the product within 12 months.
- It's advisable to store the product in a cool dry place below 30°C.
